**RIVA SCOOTERS KEEP YOU HIP WHILE YOU ZIP.**

Riva 125

*The powerful Riva 125 is capable of highway speeds, even with a passenger. The new Zuma II can share a ride around town. The Jog and Razz are two of the most economical and popular zip-around rides.*

Riva Jog

**T**ired of parking problems and showing up late?

Here's four ways to break out: the Razz, Jog, Riva 125 and the new Zuma II.

They're all fun to ride and simple to operate, thanks to features like automatic transmissions, electric start, no-maintenance shaft drive and wind-cutting leg shields.

The Razz is the lightest scooter around and consistently delivers over 100 miles per gallon. It has a low seat, a wide front apron and a roomy floorboard with ample leg room.

Next up is the Jog, a slightly more powerful scooter with electric starting and an automatic clutch—just twist the throttle and go.

The ruler of the commuter scooters is the Riva 125, with the power to travel the highway or take along a friend for your ride. Riva 125 uses a telescopic front fork and single rear shock to keep the ride smooth. Other cool touches include dual helmet locks, a cargo rack, and a locking storage bin.

The last of our four scooters is also the latest model: the new Zuma II. It boasts full front and rear suspension, an automatic transmission and convenient electric starting. Zuma II is easy to spot with its wide tires and fun attitude. And

it's easy to get around on, with a wide front apron for wind deflection, ample floorboard room and a heavy duty rear cargo rack.

Yamaha Scooters: the Razz, Jog, Riva 125 and new Zuma II.

Four ways to be economically hip while you zip.

Zuma II

Zuma II

There are few joys in life equal to the free-spirited thrill and experience of motorcycling. And that's why it's important for all of us to do our part as responsible riders. By following logical common-sense rules, we can maintain season after season of unparalleled enjoyment of our sport. Always remember to review your Yamaha Motorcycle Owner's Manual before you ride. Before each ride, take time to check all your equipment. Always wear an approved helmet, eye protection, long-sleeved shirt, long trousers, gloves and boots. And always be sure your bike is in first-class condition before riding. Keep it well-maintained and always outfitted in accordance with state and local laws. Provide parental supervision when a motorcycle is being operated by a minor. Every motorcycle rider should be aware of the limits of his or her skills, experience and abilities and ride accordingly. Beginners should be extremely cautious and allow extra time and distance for maneuvering and braking. All riders should ride well within the limits of their abilities, never beyond them. Always ride in a responsible manner, respecting the environment as well as all state and local laws. Ride responsibly, and remember, motorcycle riders, as all motorists, must practice defensive driving. Do not drink and ride. It is illegal and dangerous. Yamaha and the Motorcycle Safety Foundation encourage you to ride safely and respect the environment. For further information regarding the MSF course, please call 1-800-445-9227.

Specifications subject to change without notice. The Riva 125, Jog, Razz and Zuma come with a 12-Month Limited Factory Warranty. See your dealer for details.
